

BR EV Charging Stations

Electric vehicle charging infrastructure is available throughout Bishop Ranch on the EV Connect network. Bishop Ranch 1, Bishop Ranch 3, Bishop Ranch 7, Bishop Ranch 8, Bishop Ranch 9 and Bishop Ranch 15 all offer public level 2 EV charging.

EV Connect Network

Bishop Ranch uses the EV Connect network, giving drivers fast access to over 150 level 2 charging stations. Your account lets you pay securely and provides 24/7 customer support.

ChargePoint at BR3

ChargePoint electric vehicle charging stations are available at 2603 Camino Ramon (BR3). Visit [chargepoint.com](https://www.chargepoint.com), download the ChargePoint app for iPhone and Android, or call 888.758.4389.

BR3100 Parking Garage

Tenants in the South and East wings of BR2600 have exclusive access to a limited number of Level 1 chargers on the first floor of the parking garage. Garage access is key card controlled, chargers are available on a first come, first served basis.

Sustainability

Environmentally Friendly: EVs emit no air pollutants, and renewable electricity sources such as solar and wind produce no air pollutants, creating clean commuting power.

Energy Efficient: EVs convert up to 65% of the energy from the grid to power, while conventional vehicles only convert 25% from gasoline.

Reduced Dependence: Because electricity is a domestic energy source, EVs reduce dependence on foreign energy sources.

Infrastructure Planning: With its extensive EV Charging infrastructure, LEED certified buildings, water conservation, and NorCal's largest solar program, Bishop Ranch is a leader in environmental planning and sustainability.

EV Connect Charger Network

Bishop Ranch uses the EV Connect network, giving drivers fast access to over 150 charging stations. Your account let's you pay securely and provides 24/7 customer support.

Getting Connected:

1. Download the free EV Connect app.
2. Login or register to create an account.
3. Select "Charge" and scan the QR code located above your connector.
4. Plug in your vehicle and select "Begin Charge".
5. When charging is complete, end your session and unplug the connector.

Guidelines:

- Be courteous to your colleagues, relocate your vehicle from the connector when done charging. "Parking" may incur penalty fees.
- Our competitive rates may vary, your app can tell you the cost per kilowatt hour.
- 24/7 EV Connect Support - 866.816.7584
